

Legendary Performance[™]

KAYU[®]-Borneo-Mahogany-Plus[™] is carefully selected from the Dark Red Meranti species. Reddish brown in color when it is freshly installed. Overtime, Borneo-Mahogany-plus[™] deepens in color to that famous rich red brown-ish color and then gradually silvering over time. A result of over 150 years of combined Kayu Team extensive worldwide importing of hardwoods for the U.S. and Canadian markets.

100% Natural and 100% Organic

KAYU[®]-Borneo-Mahogany-Plus[™] possesses an incredible combination of beauty and performance, strength, and durability that is superior among even the finest decking materials available, of any kind. Its dense cell structure and interlocking grain serves as a natural deterrent to decay, insects and mold caused by humidity, and deterioration caused by snow and hot summer days. Reliable for longevity, durability and low-maintenance. Always beautiful.

A proven performer for decades in the most demanding applications with a Class A Flame Spread Rating (same as concrete and steel). 100% clear grade, kiln dried for consistency, smoothly finished and always double checked by KAYU exclusive graders.

Disclaimer:

KAYU® hardwood products are carefully selected species and manufactured to ensure the finest quality. However, all natural wood is subject to some minor expansion and contraction as the moisture in the environment surrounding the wood changes through the seasons. Careful attention to our installation instructions will be important for long term performance and enjoyment.
